

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service!  
Cellular or land line. Not everyone is wealthy and can afford  
such high increases. This country's poor are getting poorer -  
just because prices are going higher and higher! The poor and  
middle class deserve the same conveniences as the wealthy. Why  
should we suffer the increases??

Sincerely,

Debbie Davenport
